KS was the week's winner with an impressive 11 winning picks pulling him into a tie with MS trailing LF by a game. KS lurking over the front-runner (a-la Trump)ready to Pence, I mean pounce, when the time is right. SR after several impressive weeks struggled with seven winners now two games off the pace. BD and JP had 10 winning picks allowing both to move up in the standings. BD won her 1500th pick and finds herself in a five way tie with BS, DP, DR, and NF each with 51 wins to date. Speaking of year to date wins, the membership is considerably off pace compared to last year. For example, BD was in first place at the end of Week 6 last year with 63 wins compared to LF's first place total this year of 58 wins. Go to the Message Board and tells us why you think wins are down this year. A special acknowledgement to LF and KB who are celebrating there PFVCC 10 year anniversary. Yours in football, SS
