SS Gains a Game; Tied for First with DP

Two Weeks Remain and Five Suitors Vie for the Winner’s Trophy

Effective date: 2015-12-22

Week 15 was a particularly strong week for membership, with the overwhelming majority of members having 11 or more wins. DP, BD, and BS all tallied 12 wins and maintained their footing from last week. SS, LF, DR, and CM all tallied 13 wins, and moved up in the rankings. This is particularly significant as it regards SS and LF. SS has officially moved back to the top spot, now tied with DP. SS has been fighting tooth and nail since Week 5 to get back to the top spot, which he held solo or as a tie for the first four weeks of the season. LF’s movement is also important, because with two weeks remaining, he moves to a tie with BS at only three spots back, meaning that they are both still “in it” mathematically. BD has been relatively quiet for the past two weeks. Although she fell out of the top, she has been staying consistent and could easily find herself back at the top.

So to recap, we have firmly established our top five in the final sprint of the season: DP, SS, BD, BS and LF. Also to recap, DP and BD find themselves in some pretty strong company, as SS, BS and LF have all hoisted the Winner’s Trophy in the past four seasons. It’s going to be exciting!

Merry Christmas, everyone! Very happy and healthy holidays and safe travels to all.

Happy Picking.
