

Membership back on track; 12 wins sets the pace

MS hits personal milestone in the process

Effective date: 2019-11-19

After back to back subpar weeks for membership, week 11 brought a new found focus and determination. CM, LF, KS and NF lead the way as they picked 12 winners a piece to put themselves on notice, and noticed they were, great picking comrades! The slightly less fortunate, however still worthy 11 win crew was made up of MS, SS, SR and JP. A scrappy bunch to say the least and we nod in agreement to that! Shifting focus to the leaderboards, a fierce game of musical chairs amongst the top 4 (CM, LF, MS and SS) is where this party has taken us and it's just a matter of time before the music stops on one or more of this group. Catch yourself a step slow in a given week and it might be a quick stop at the punchbowl to ask yourself why you couldn't find a seat amongst the madness. Our friends KS, SR and BS will have none of this tomfoolery that is musical chairs as they look to get more involved down the stretch, but time is a ticking and if they look to make moves, now is the time to start chipping away. Let's Party!

Loner picks were in abundance this week as we had 5 games to keep an eye on. JP hit on his only attempt as he took ATL who pummeled CAR, great take JP! DP wasn't as fortunate as his pick PHI lost a close one to NE. Finally, our bold loner lover DR posted 3 attempts, none of which were successful. MIA lost big to BUF, DEN came close against MIN but horseshoes wasn't the game at hand, and CIN couldn't out duel OAK. Tough day at the office but we share in your sorrows DP and DR!

Finally, would like to note that MS reached his 2,000th career win, which is worth a league-wide congrats! Keep killin' the game youngin'! Crunch time is upon us, best of luck to all!

Still Pimpin',

LF
