MM Becomes the Newest Member of the Perfect Performance Club

Membership Shines Once Again; CM Captures Career Milestone

Effective date: 2024-12-18

If you thought this year couldn't get any more crazy, week 15 had something up its sleeve. How about another perfect performance in 2024!? MM was the newest member to earn his initials engraved onto the "Perfect Performances" Plaque..Which will most certainly need to be expanded after the now sixth perfect week we've witnessed this year. Absolutely incredible! MM brought out all the tricks for this one as his 16 wins allowed him to gain two games on the leader to set him up for a chance at a second "miracle" run to match his 2001 performance that stands as one of the great PFVCC success stories to this day. MM loves to play spoiler and we will be watching closely with 3 weeks to play. MM was the main headline, but 1b went to KB and KS who went 15-1 and any other week would have taken the A block. LF, SS and PM were just behind them with 14 wins and the remainder of membership all logged double digit victories to put a bow on a very fruitful week 15. Another testament to an incredible picking year by all and one that could go down as one of the winningest ever! We will have the boys in IT fact check that to make sure I'm not just throwing out superlatives because I'm excited. To be continued, but until then no MIP no problem for membership!

One area that wasn't glowing was our loner picks this week. Not much to be said as four picks were on display and not one made it out with a win. Unfortunate for those members but we appreciate your gall.

Finally, let's show some love to CM who logged his 4,000th career win over the weekend! Just a stepping stone in an already great career. Congrats CM!

3 weeks remain and the race is tight! We are in for a great finish!

Your President,

LF
