

KS and SS Come Knocking in Week 3; Join MS in the Penthouse

Five Members with 11 Wins as the Early Season Shuffle Continues

Effective date: 2025-09-23

A week ago MS arrived at #1 Penthouse Drive all on his own to take in all that it had to offer. He took a few days to get himself settled, and the enjoyment of the spacious abode hadn't even set in when he heard a knock at the door. MS went to go see who it was but before he could make it halfway there the door swung open and in came KS and SS. They walked in as if they owned the place and MS hadn't even acknowledged them yet when SS, behind a wry smile, said "Hey'a Sport, thanks for making room". The confidence of 12 wins could be heard in the tone. KS and SS looked around at the decor and KS shrugged and let out a "not bad". After MS' 11 wins, It was apparent, they would be staying for the week...at least. Just down the street at #2 Runnerup Route the remaining 11 win group of BS, CM, DP and PM gathered to recap their performances. All in different spots on the leaderboard, but on this night they could find common ground. The remaining members decided to have a night on the town and rumor has it, it was rough night for them. No matter where you spent your time, take solace in the fact that there's still a long road ahead.

If loner picks were field goals, 3 out of 4 of them were blocked. None stung worse than PM taking LAR who actually lost in that fashion... NF and DJ also missed their kicks. DP was the sole victor with CHI. Great job making your attempt through the uprights, DP!

See you all in week 4!

Your President & Champ,
